1. Between 1100 and 1745 on 4 June 1955, 26 MIG-15s, 1 Yak-11, and 1 biplane were counted at Parndorf Airfield. One crane and two iron-cleated crates, about 180 x 200 cm were seen near an unserviceable MIG-15 without tail unit, and five similar crates observed south of the western edge of the runway. There was a 3/10 overcast, southerly wind of about 10km/h, a temperature of 22 degrees centigrates, and good visibility. No air activity was observed.

2. The grass covering the runway was cut mechanically. A total of about 180 men were counted at the airfield area. In the billeting area, 3-ton truck                      and the 250 cubic meter motorcycle                      were observed.
